the European Union

# COURSE OVERVIEW

Regardless of your computer experience, this class will help you become more aware of technology-related risks and what you can do to protect yourself and your organization from them. This course will help you to:

- Understand both security and compliance needs and requirements.
- Recognize and avoid phishing and other social engineering attempts.
- Recognize and avoid viruses, ransomware, and other malware.
- Help ensure data security on computers, mobile devices, networks, the Internet, and in the cloud.

## TARGET AUDIENCE

This course is designed for all users of computers, mobile devices, networks, and the Internet, to enable them to use technology more securely and minimize digital risks, regardless of technical ability.

# COURSE DESCRIPTION

- Identify security compliance measures
- Address social engineering attempts
- Secure devices such as desktops, laptops, tablets, smartphones, and more
- Use the Internet securely

- **Identifying Security Compliance Measures**
  - Identify Organizational Compliance Requirements and Resources
  - Identify Legal Compliance Requirements and Resources
  - Identify Industry Compliance Requirements and Resources
- **Recognizing and Addressing Social Engineering Attacks**
  - Recognize Phishing and Other Social Engineering Attacks
  - Defend Against Phishing and Other Social Engineering Attacks
- **Securing Devices**
  - Maintain Physical Security of Devices
  - Use Secure Authentication Methods
  - Protect Your Data
  - Defend Against Malware
  - Use Wireless Devices Securely
- **Using the Internet Securely**
  - Browse the Web Safely
  - Use Email Securely
  - Use Social Networks Securely
  - Use Cloud Services Securely
  - Work from Remote Locations Securely
