MASTER YOUR DIGITAL SKILLS
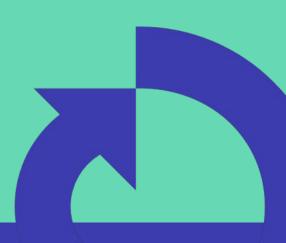

Databases - SQL

Data Analytics, data literacy & data driven decisions

Workearly

COURSE OVERVIEW

This course is designed to take you through the fascinating world of databases, with a special focus on MySQL and SQL. It is structured to provide a deep understanding of how databases function and how to effectively interact with them using SQL, the standard language for database management.

OUR GOALS

1. Build a Strong Foundation in Database Concepts.

2. Develop Hands-On MySQL Skills.

3. Encourage Data-Driven Decision Making in Professional Environments

4. Prepare for Future Learning and Professional Growth

COURSE DESCRIPTION

Databases - SQL is a user-friendly course designed for anyone interested in mastering SQL, the key language for database management. Perfect for beginners or those looking to refresh their skills, this course simplifies complex concepts into easy-to-understand lessons.

Main Topics :

1. **SQL Basics: Grasp the core commands of SQL including SELECT, WHERE, and more.**

2. **JOINS: Discover how to combine data from different tables in a database.**

3. **SubQuery & CTE: Learn about advanced SQL techniques like subqueries and Common Table Expressions (CTE) for more complex data operations."**

4. **Coding Assignments.**

COURSE INFO

Location	[**Workearly Platform**](#)
Starting Date	**26.02.2024**
Time	**15:00 CET**
Duration	**25 hours**
Cost	**Participation is fully funded by the European Union, under the Level Up Project**
