MASTER YOUR DIGITAL SKILLS

Python Essentials
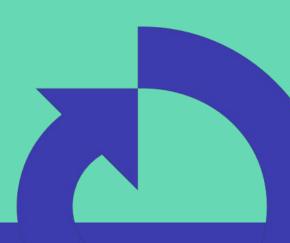

Data Analytics, data literacy & data driven decisions

Workearly

Co-funded by
the European Union

COURSE OVERVIEW

Embark on an exciting journey into programming with our beginner-friendly Python course! Perfect for newcomers, this course simplifies complex concepts into easy-to-understand lessons.

OUR GOALS

1. Establish a Strong Foundation in Python Programming

2. Develop Proficiency in Problem-Solving and Logical Thinking

3. Foster the Ability to Write Efficient and Reusable Code

4. Prepare for Real-World Programming Applications

COURSE DESCRIPTION

This is a beginner-friendly course that opens the door to the world of programming with Python. This course is perfect for those new to programming and covers essential topics in a simple, easy-to-understand manner, while simplifying technical processes.

Main Topics :

1. **Data Structures: Uncover the secrets of efficiently organizing and managing data.**

2. **Functions & Methods: Learn the art of writing reusable and modular code.**

3. **Operators: Get to grips with Python's operators for performing various computational tasks.**

4. **Coding Assignments.**

5. **Conditional Logic: Explore how to control the flow and logic of your programs effectively.**

COURSE INFO

Location	**<u>Workearly Platform</u>**
Starting Date	**26.02.2024**
Time	**15:00 CET**
Duration	**30 hours**
Cost	**Participation is fully funded by the European Union, under the Level Up Project**
