

MASTER YOUR DIGITAL SKILLS

AI for HR

Artificial Intelligence (AI)

Workearly

Co-funded by
the European Union

SEMINAR OVERVIEW

1. Understand how AI enhances recruiting, screening, and interviewing workflows.
2. Learn how to automate HR tasks and use analytics for data-driven decisions.
3. Explore ethical challenges, bias, and compliance in AI-driven HR.
4. Practice real HR scenarios using ChatGPT, AI tools, and guided case studies.

TARGET AUDIENCE

Designed for HR professionals, recruiters, team leads, and business partners who want to apply AI effectively in talent acquisition, analytics, and employee management. Ideal for anyone aiming to upgrade their HR workflow with modern AI tools and best practices.

COURSE DESCRIPTION

Discover how artificial intelligence transforms modern HR functions, from recruiting and screening to analytics, performance management, and employee development. This course provides practical tools, ethical guidance, and real HR-focused applications to help professionals work smarter with AI in everyday operations.

- AI-powered recruiting & screening
 - Adaptive and automated interviewing
 - HR analytics & data-driven decision making
 - Automation of HR tasks & workflows
 - Bias, compliance & ethical considerations
 - AI for performance management & L&D
- Prompts & tools for daily HR operations
- Case studies: sourcing, onboarding, interviewing
 - Future trends & AI-driven HR strategy
