

MASTER YOUR DIGITAL SKILLS

Taking Control of Your Company Data with Power BI

Data Analytics, data literacy & data driven decisions

*Tommi Dahlroos, Alberto Haviola
& Jani Gröhn, Knobbi Oy*

Co-funded by
the European Union

COURSE OVERVIEW

Unlock the power of data-driven decision-making with this hands-on Power BI course.

Learn to combine data from multiple sources into clear, actionable insights that support smarter business decisions.

OUR GOALS

1. Simplify data management with Power BI
2. Visualize data with Power BI
3. Help participants grasp the basics of Power BI quickly and effectively
4. Equip attendees with skills to consolidate data from multiple platforms
5. Create understanding for participants about issues in data quality and data handling in their own organization

COURSE DESCRIPTION

Feeling overwhelmed
by scattered data?

This practical Power BI course will guide you in combining and analyzing data from multiple systems, empowering you to take control of your company's data flow.

- Integrating data from multiple sources into one view
- Creating clear, actionable data visualizations
- Understanding and applying core Power BI tools
- Building real-time dashboards for ongoing insights
- Mastering data-driven decision-making essentials
