

MASTER YOUR DIGITAL SKILLS

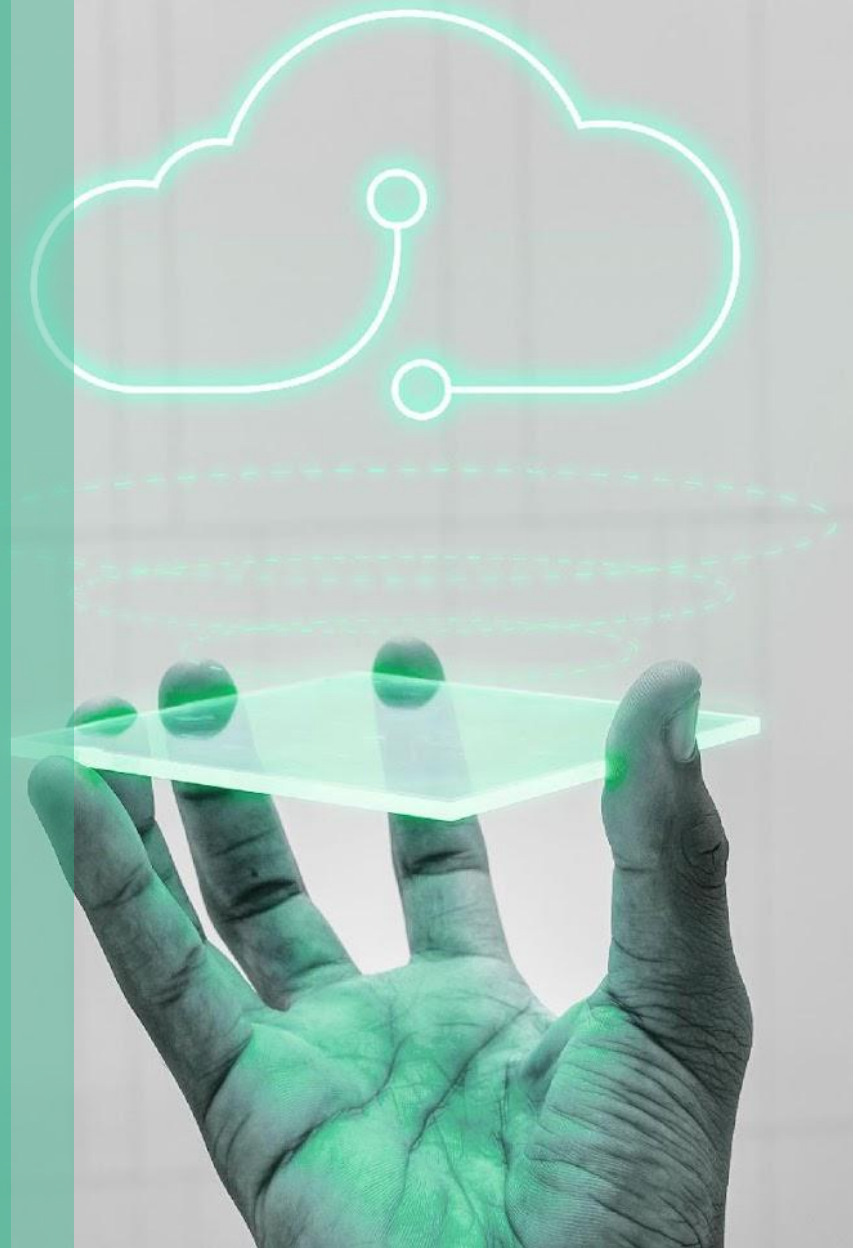

Moving from Javascript to Typescript

Cloud & Software / Programming

Workearly

Co-funded by
the European Union

COURSE OVERVIEW

Transition smoothly from JavaScript to TypeScript by learning how to apply strong typing, interfaces, and modern tooling. Improve the scalability and maintainability of your web applications with practical TypeScript knowledge.

OUR GOALS

1. Understand the key differences between JavaScript and TypeScript.
2. Learn how type safety improves development quality.
3. Use interfaces, classes, and generics effectively.
4. Migrate existing JS projects to TypeScript confidently.

COURSE DESCRIPTION

Bridge your JavaScript knowledge into TypeScript and unlock the power of strong typing. Learn how TypeScript enhances scalability, maintainability, and productivity in modern web development.

- **Why TypeScript: benefits and use cases**
- **Type annotations and interfaces**
- **Classes, generics, and modules**
- **Working with the TypeScript compiler**
- **Migrating JavaScript codebases**

COURSE INFO

Location	<u>Workearly Platform</u>
Date	Asynchronous
Duration	2 hours
Cost	Participation is fully funded by the European Union, under the Level Up Project
