

MASTER YOUR DIGITAL SKILLS

**Vibe coding fundamentals
from prompt to your first
web app**

Artificial Intelligence (AI)

Workearly

Co-funded by
the European Union

SEMINAR OVERVIEW

1. Introduction to AI-assisted coding and modern development tools
2. Understanding the basic structure of a web application.
3. Generating functional components using natural language prompts.
4. Building interactivity and connecting APIs.
5. Deploying your first working web app online.
6. Reviewing best practices for clean, maintainable code.

TARGET AUDIENCE

This seminar is ideal for beginners in coding, aspiring web developers, and professionals curious about AI-assisted programming. It's designed for anyone who wants to quickly grasp how modern tools can transform ideas and prompts into functional web applications — even without prior coding experience.

COURSE DESCRIPTION

Experience hands-on AI-assisted coding and web development. Learn how to transform natural language prompts into functioning web applications using cutting-edge tools and frameworks.

- Introduction to AI-assisted coding
- HTML, CSS, and JavaScript fundamentals
- Using prompts to generate functional components
- Integrating APIs and simple backends
- Deploying your first web app

COURSE INFO

Location	<u>Workearly Platform</u>
Date	Asynchronous
Duration	2 hours
Cost	Participation is fully funded by the European Union, under the Level Up Project
